## Practice algebra questions

## 72 questions

Basic addition & subtraction algebra practice task cards with 12 questions sheet and 72 questions altogether. Ideal for regular as well as special education (special ed.).

Basic algebra questions on each worksheet are presented in one of the following forms:

$$a + b = x$$

$$a - b = x$$

$$a + x = b$$

$$a - x = b$$

$$x + a = b$$

$$x - a = b$$

This is an excellent set of practice questions for those being introduced to algebra. The difficulty of the sums is relatively low with numbers in the 1-20 range.

These questions are slightly harder as the numbers are higher and it is no longer multi-choice.
