

Averages

MEDIAN

- 1 instruction slide
- 1 answers slide
- 8 x 3-digits average slides
- 8 x 5-digits average slides
- 8 x 7-digits average slides

Practice finding the MEDIAN averages.

Each slide presents a small group of numbers and you have to find the median average. The median average is the middle number once all the other numbers have been ordered numerically.

An instructions card clearly shows how the median average is calculated.

Answers slide is also included!

The **MEDIAN** is the middle number once all the numbers have been sorted numerically

Arrange the numbers in order and then find the middle number

3, 7, 2
becomes
2, 3, 7
so the median is

11, 3, 3, 7, 9
becomes
3, 3, 7, 9, 11

What is the **MEDIAN** average of these numbers?

5, 7, 2

What is the **MEDIAN** average of these numbers?

7, 6, 5, 4, 3

What is the **MEDIAN** average of these numbers?

1, 2, 3, 4, 5, 8, 3

MEDIAN - Answers

5, 7, 5 5	1, 1, 1 1	2, 7, 7 7	100, 101, 100 100	6, 4, 3, 6 6	78, 87, 88, 78 78
1001, 1100, 1001, 1010 1001	18, 19, 20 19	1, 0, 3, 2, 3 3	13, 3, 13, 3, 13 13	23, 21, 22, 22, 24 22	
5, 3, 2, 4 3	36, 32, 35, 34, 33 34	99, 88, 77, 99, 66, 55 99	123, 321, 43, 123, 312 123	0, 2, 0, 0 0	5, 7, 3, 4, 5, 1, 6 5
4, 3, 5, 4, 3 4	10, 0, 10 10	41, 50, 41 41	8, 7, 8, 7, 8, 7, 8 7	5, 52, 5, 5, 15 5	2, 3, 2, 3, 2 3
