

Compound Words #2

Drag to make a compound word

32 Boom cards

Click [HERE](#) for a playable preview

Make new compound words from the individual words presented.

Each card presents 8 individual words. Pairs of these words join together to make a new compound word. There are 4 new compound words to be found on each card.

Simply drag the words on the left to the appropriate position on the right to join the two words together. When all four pairs of individual words are correctly matched together to form the correct 4 compound words, the deck advances to the next slide. Get it wrong and the words will just bounce back to their starting positions so you can try again.

To help illustrate what you need to do and to help get you going, the first two cards provide color-coded individual words. Just match the colored words together to solve the card. Thereafter, you have to find the right pair yourself.

With the exception of the first two cards, this 24-card deck is randomised, so no two students will see the same order of cards.

With 8 words and 4 compound words per card, this 24-card deck has 192 words and 96 compound words that need to be found.

In this deck, you are looking to match the first part of the compound word to the second. In the previous deck, it's the other way around.

Make 4 new compound words

dead	bow
bank	pond
cross	line
fish	note
