Crossword Numbers 3 is like doing a regular crossword but with numbers instead of words. This is an amazingly fun way to make math seem like play. The crossword 'clues' are math sums you have to complete in the grid itself. Work your way around the grid until all the sums are solved.

There are dedicated worksheet puzzles for each type of operator (+, -, x & ÷) as well as a bonus extra card with mixed sums featuring a combination of all the operators. All the Cross Number cards in this deck are 10x10 grids, with smaller and relatively easier sums to solve.

These number puzzles feature 2-digit, 3-digit & 4-digit addition, subtraction, multiplication & division.
