

Logic Puzzles numbers

Addition math puzzles

33 Google slides

4 instruction slides

1 solutions side

28 addition puzzle slides

Logic Puzzles numbers is a fun series of GOOGLE Slides that test a student's mental math skills with basic arithmetic through a fun game of trying to find the right numbers to make all the sums work. A 2x2 grid is displayed into which the student must place 4 numbers. These numbers **add** in various directions (2 horizontal, 2 vertically & 1 diagonally) to make 5 additional numbers. Only the correct permutation of numbers added to the grid will result in the sums all working out correctly. The first few slides are relatively simple, and will allow the student to get the hang of things. They become progressively more challenging as you progress through the deck. In this deck, only **addition** sums are presented.

The collage displays 12 puzzle slides. Each slide features a 2x2 grid of empty boxes for numbers. Arrows indicate the sums to be calculated: two horizontal, two vertical, and one diagonal. The sums are provided on the right side of the grid. The numbers 0-9 are scattered around the grids, some with cartoon faces. The slides are arranged in a staggered, overlapping fashion.

- Slide 1: Grid sums are 3, 7, 4, 6, and 5.
- Slide 2: Grid sums are 4, 5, 3, 6, and 6.
- Slide 3: Grid sums are 4, 7, 8, 3, and 5.
- Slide 4: Grid sums are 6, 5, 3, 8, and 4.
- Slide 5: Grid sums are 9, 14, 12, 11, and 10.
- Slide 6: Grid sums are 8, 7, 3, 12, and 6.
- Slide 7: Grid sums are 11, 8, 10, 9, and 10.
- Slide 8: Grid sums are 8, 14, 7, 15, and 9.

The collage displays 4 instruction slides. Each slide features a 2x2 grid of empty boxes for numbers. Arrows indicate the sums to be calculated: two horizontal, two vertical, and one diagonal. The sums are provided on the right side of the grid. The numbers 0-9 are scattered around the grids, some with cartoon faces. The slides are arranged in a staggered, overlapping fashion.

- Slide 1: "1. Study the 2x2 grid on each slide" shows a grid with sums 2, 2, 2, 2, and 2.
- Slide 2: "2. Type a number (from 1-9) into each square" shows a grid with a hand typing a number into one of the boxes.
- Slide 3: "3. Make all 5 equations correct" shows a grid with numbers 1 and 3 in the top row, and 2 and 2 in the bottom row. The sums are 2, 2, 2, 2, and 2. A green checkmark is next to the bottom-right sum.
- Slide 4: "4. When all 5 equations are correct, the puzzle is solved!" shows a grid with numbers 1 and 1 in the top row, and 2 and 2 in the bottom row. The sums are 2, 2, 2, 2, and 2. All sums have green checkmarks next to them.

The collage displays 12 puzzle slides. Each slide features a 2x2 grid of empty boxes for numbers. Arrows indicate the sums to be calculated: two horizontal, two vertical, and one diagonal. The sums are provided on the right side of the grid. The numbers 0-9 are scattered around the grids, some with cartoon faces. The slides are arranged in a staggered, overlapping fashion.

- Slide 1: Grid sums are 2, 4, 2, 2, and 2.
- Slide 2: Grid sums are 4, 2, 4, 2, and 4.
- Slide 3: Grid sums are 3, 7, 4, 6, and 5.
- Slide 4: Grid sums are 2, 4, 3, 6, and 5.
- Slide 5: Grid sums are 3, 4, 8, 3, and 5.
- Slide 6: Grid sums are 3, 6, 4, 5, and 5.
- Slide 7: Grid sums are 1, 3, 4, 3, and 6.
- Slide 8: Grid sums are 2, 5, 4, 3, and 4.
- Slide 9: Grid sums are 2, 4, 3, 6, and 5.
- Slide 10: Grid sums are 1, 3, 4, 3, and 6.
- Slide 11: Grid sums are 2, 4, 3, 6, and 5.
- Slide 12: Grid sums are 1, 3, 4, 3, and 6.
