A fun game of wordsearch... but with a twist.

Find the indicated value of Australian coins in the wordsearch grid with exactly 3 coins in this fun money counting game.

This is just like a regular wordsearch puzzle but instead of letters, combinations of Australian coins are used.

The deck contains a mixture of easier and harder grids to solve and is randomised. Only one solution exists on each card, so once the value in coins has been found, the student can advance to the next card in the deck.

The student is presented with a grid of coins and asked to find a specific value using with exactly 3 coins in a straight line, horizontally, vertically or diagonally, just by clicking on them. Only once they have found the one and only occurrence of the value indicated, the card be solved and you are advanced to the next card in the deck.
