A fun game of wordsearch... but with a twist.

Find the indicated value of Canadian coins in the wordsearch grid with 2 or more coins in this fun money counting game.

This is just like a regular wordsearch puzzle but instead of letters, combinations of Canadian coins are used.

The deck contains a mixture of easier and harder grids to solve and is randomised. Only one solution exists on each card, so once the value in coins has been found, the student can advance to the next card in the deck.

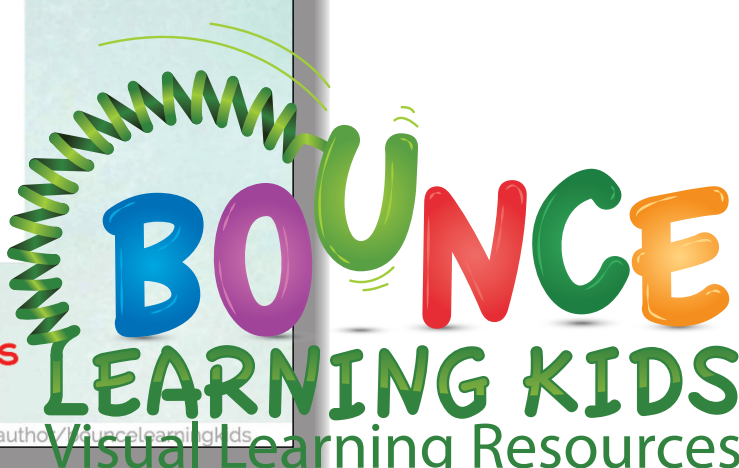

The student is presented with a grid of coins and asked to find a specific value using any combination of 2 coins in a straight line, horizontally, vertically or diagonally, just by clicking on them. Only once they have found the one and only occurrence of the value indicated, the card be solved and you are advanced to the next card in the deck.

A 5x5 grid of Canadian coins. Two coins are circled in blue: a 25-cent coin in the second row, first column, and a 5-cent coin in the third row, first column. The text below the grid reads: "Find \$1.01 with any 2 or more coins".

A 5x5 grid of Canadian coins. Three coins are circled in blue: a 5-cent coin in the first row, first column, a 5-cent coin in the second row, second column, and a 5-cent coin in the third row, third column. The text below the grid reads: "Find 3c with any 2 or more coins".

A 5x5 grid of Canadian coins. Three coins are circled in blue: a 25-cent coin in the second row, fourth column, a 25-cent coin in the third row, third column, and a 25-cent coin in the fourth row, second column. The text below the grid reads: "Find 75c with any 2 or more coins".

A 5x5 grid of Canadian coins. Two coins are circled in blue: a 10-cent coin in the first row, third column, and a 10-cent coin in the second row, fourth column. The text below the grid reads: "Find 10c with any 2 or more coins".

You may be eligible for a free trial from Boom Learning. Read here for details: <http://bit.ly/BoomTrial>. If you choose not to stay on a premium account after your free trial, you will still be able to assign all your Boom Cards to as many students as you see fit using Fast Play pins (which give instant feedback for decks that are self-grading).
