

Money Search

US #4

50 Boom cards

Click [HERE](#) for a playable preview

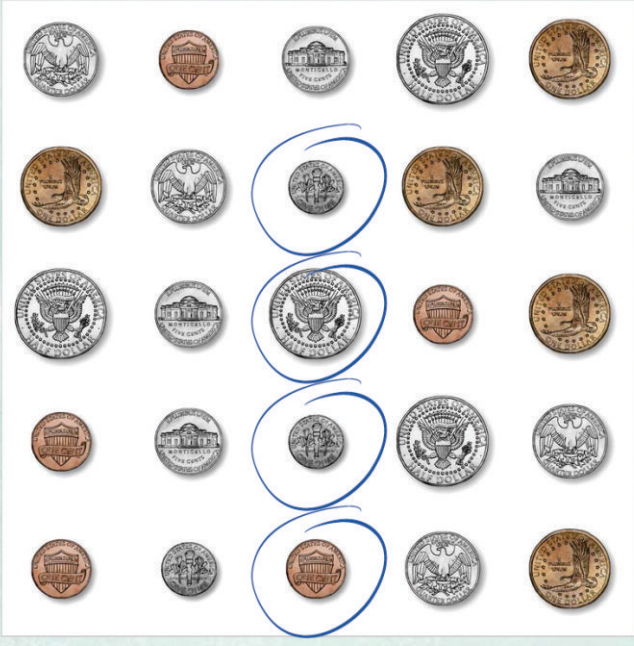

A fun game of wordsearch... but with a twist.

Find the indicated value of US coins in the wordsearch grid with 2 or more coins in this fun money counting game.

This is just like a regular wordsearch puzzle but instead of letters, combinations of American coins are used.

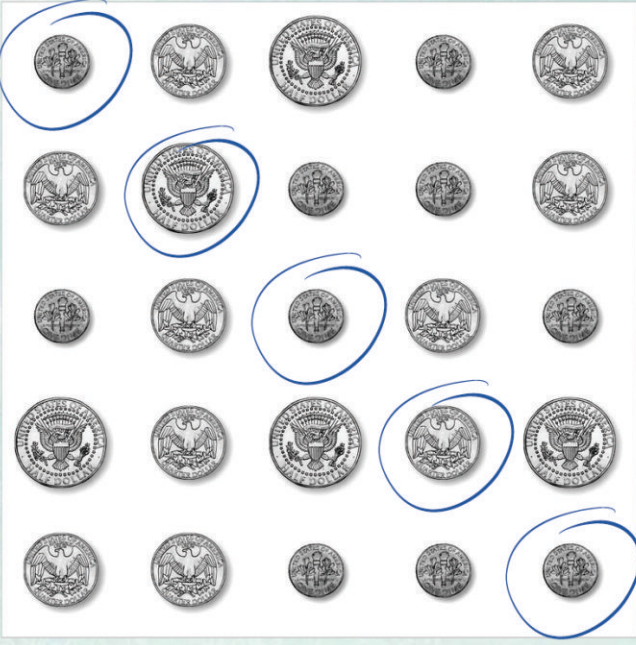

The deck contains a mixture of easier and harder grids to solve and is randomised. Only one solution exists on each card, so once the value in coins has been found, the student can advance to the next card in the deck.

The student is presented with a grid of coins and asked to find a specific value using any combination of 2 coins in a straight line, horizontally, vertically or diagonally, just by clicking on them. Only once they have found the one and only occurrence of the value indicated, the card be solved and you are advanced to the next card in the deck.

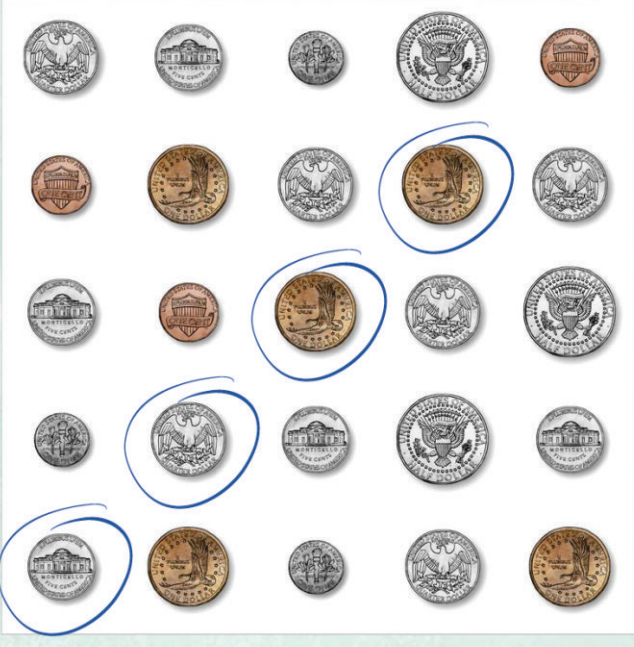

Find 71c with any 2 or more coins

A 5x5 grid of various US coins. Four coins are circled in blue: a dime in the second row, second column; a dime in the third row, third column; a dime in the fourth row, third column; and a penny in the fifth row, second column.

Find \$1.05 with any 2 or more coins

A 6x5 grid of various US coins. Five coins are circled in blue: a dime in the first row, first column; a dime in the second row, second column; a dime in the third row, third column; a dime in the fourth row, fourth column; and a dime in the fifth row, fifth column.

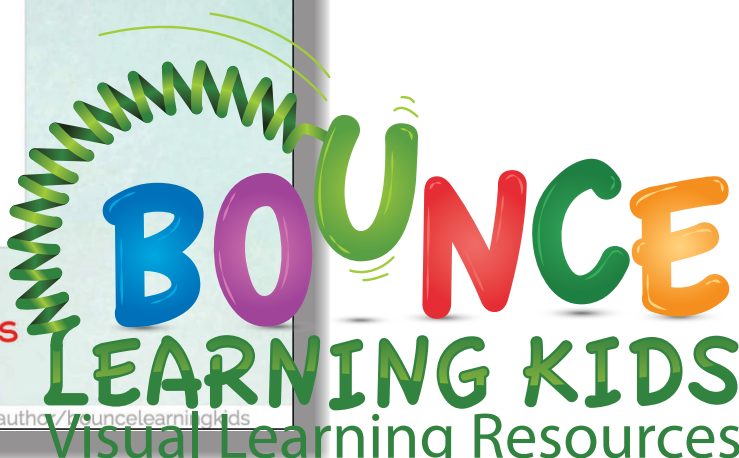

Find \$2.30 with any 2 or more coins

A 6x5 grid of various US coins. Four coins are circled in blue: a dime in the second row, fourth column; a dime in the third row, third column; a dime in the fourth row, second column; and a dime in the fifth row, first column.

Find 32c with any 2 or more coins

A 6x5 grid of various US coins. Four coins are circled in blue: a dime in the first row, third column; a dime in the second row, second column; a dime in the third row, second column; and a dime in the fifth row, third column.

You may be eligible for a free trial from Boom Learning. Read here for details: <http://bit.ly/BoomTrial>. If you choose not to stay on a premium account after your free trial, you will still be able to assign all your Boom Cards to as many students as you see fit using Fast Play pins (which give instant feedback for decks that are self-grading).
