

Mystery Picture Math instructions

+

Mystery Picture Math 'A3'	
$32 + 34$	$40 + 16$
$17 + 30$	$15 + 30$
$16 + 20$	$16 + 60$
$30 + 27$	$24 + 30$
$40 + 46$	$23 + 23$
$2 + 53$	$28 + 30$

=

1

Start with an empty grid, which is a file called

DL-MyaPicMath-starting-grid.jpg

Print one of these for each child.

2

There are several files named DL-MyaPicMath-x3, where x is a letter from a to j. Each represents one particular mystery image.

Each of these sheets has a selection of Addition (no carrying) type math questions.

Each child starts out with 2 sheets of paper: the empty grid (left) and one of these questions sheets.

3

Using the answers from the question sheets, fill in the corresponding numbers on the starting grid.

If the answer to one of the questions is, for example, 10, then fill in the square numbered 10, and so on. Do this for all the questions.

When all the correct numbered squares are filled in, the mystery image is revealed.
