

# Number Snake

## 35 Boom cards

Click [HERE](#) for a playable preview

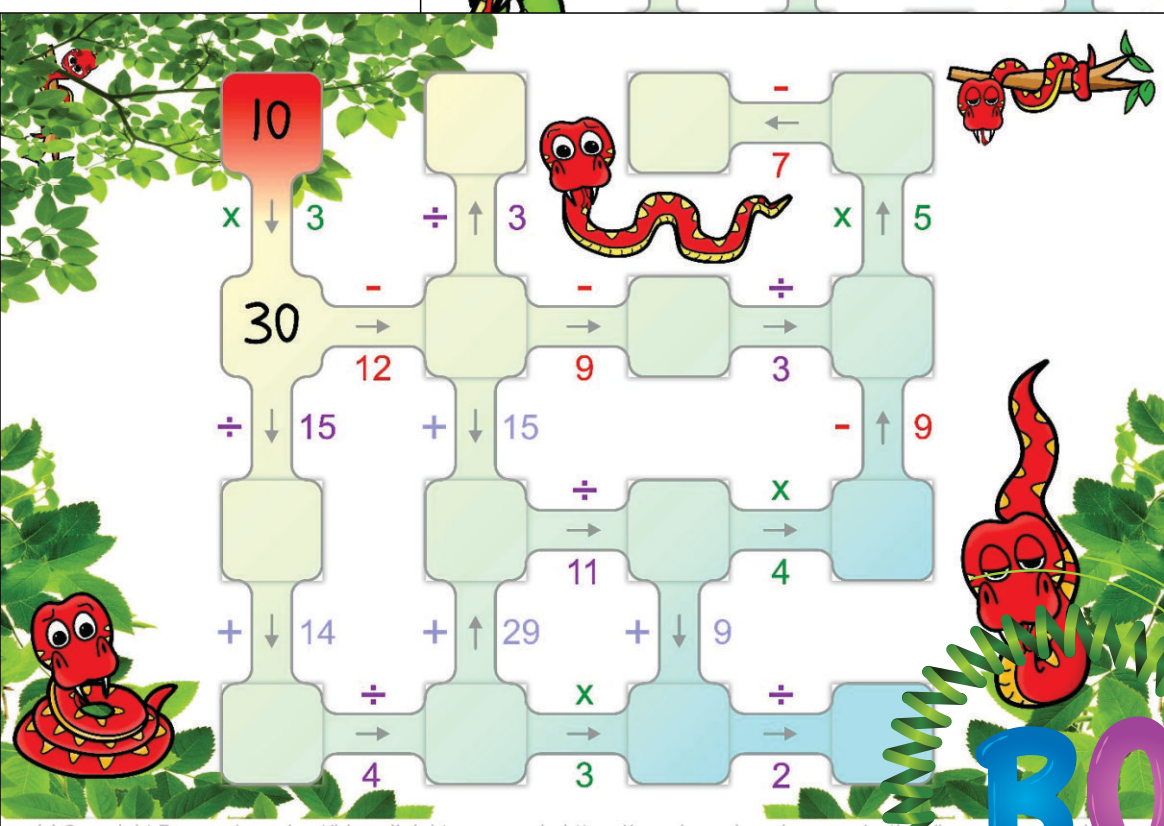

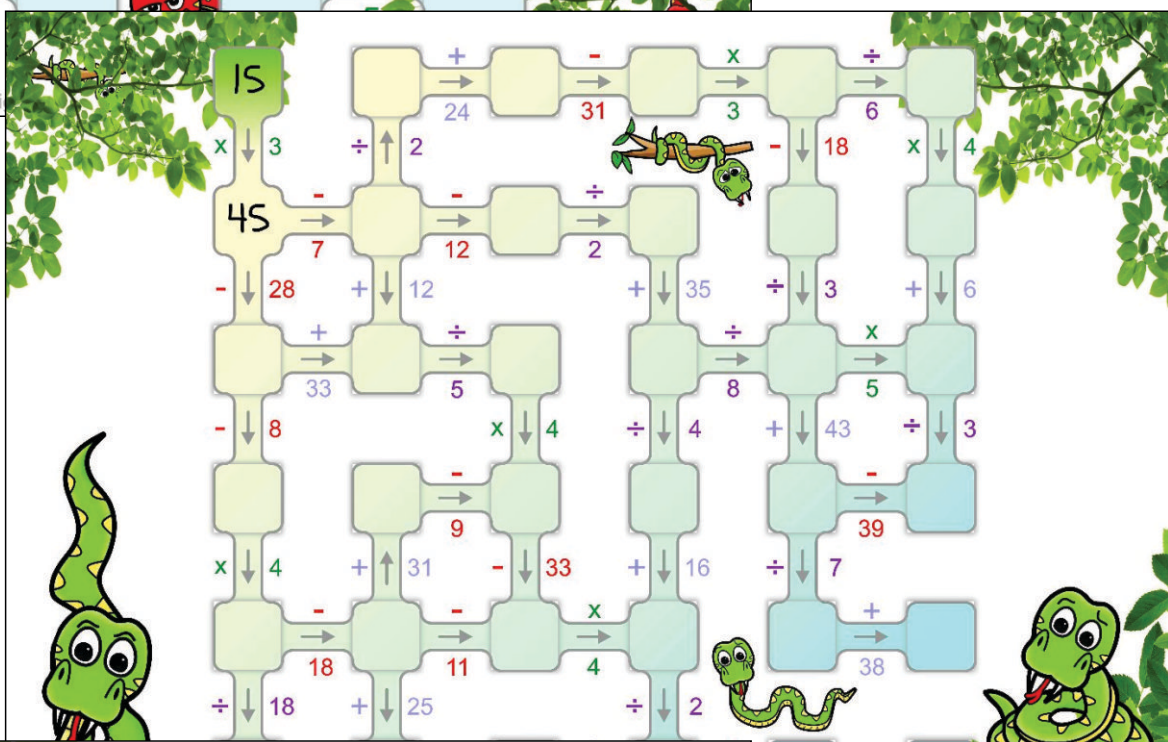

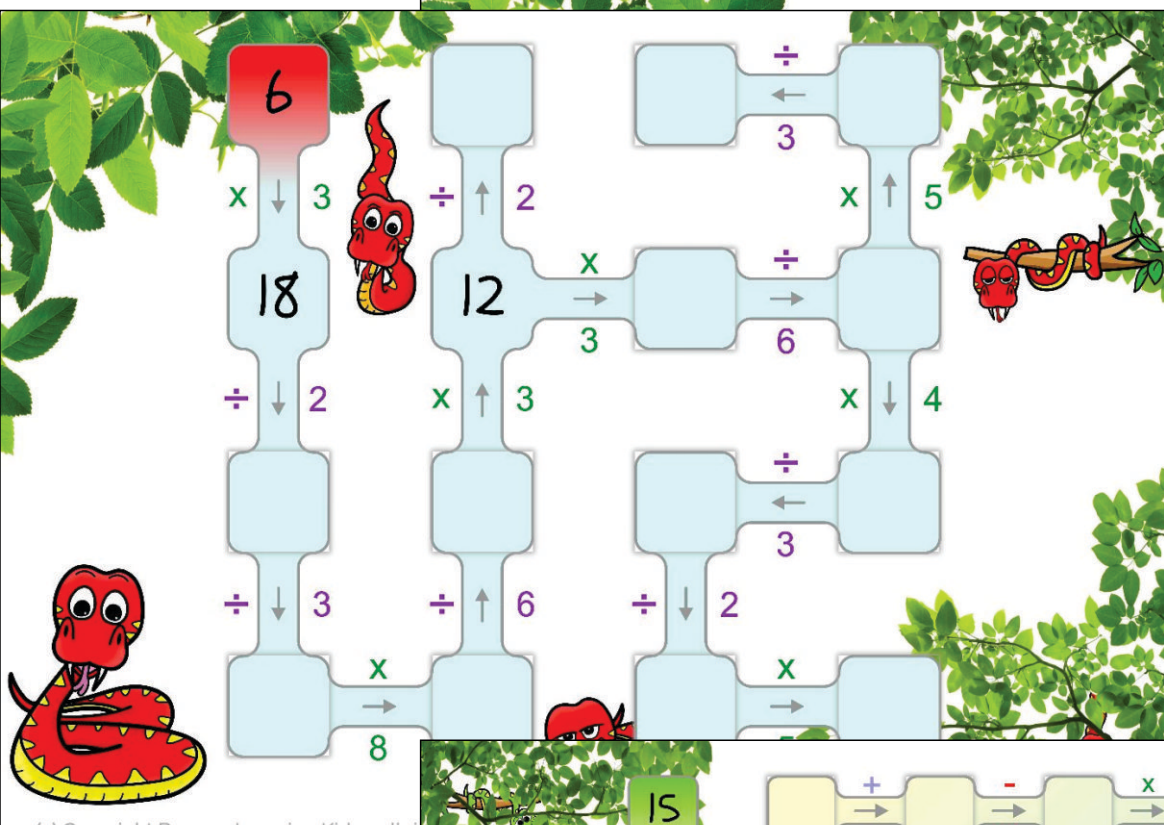

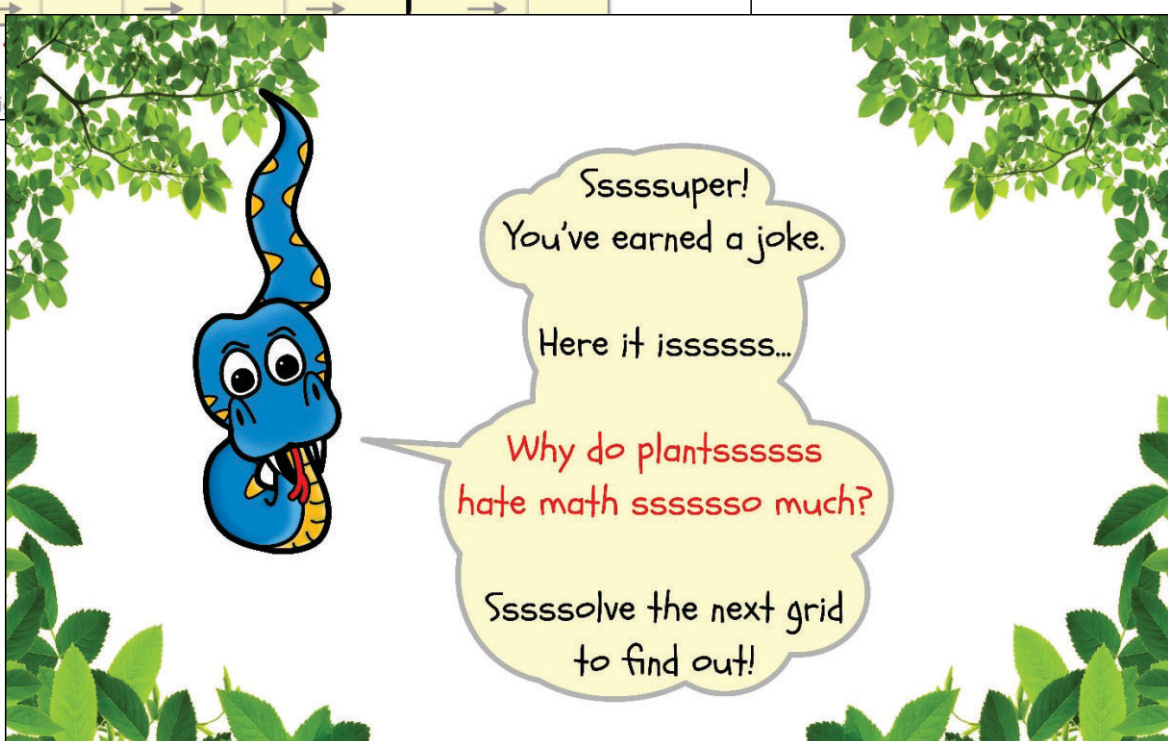

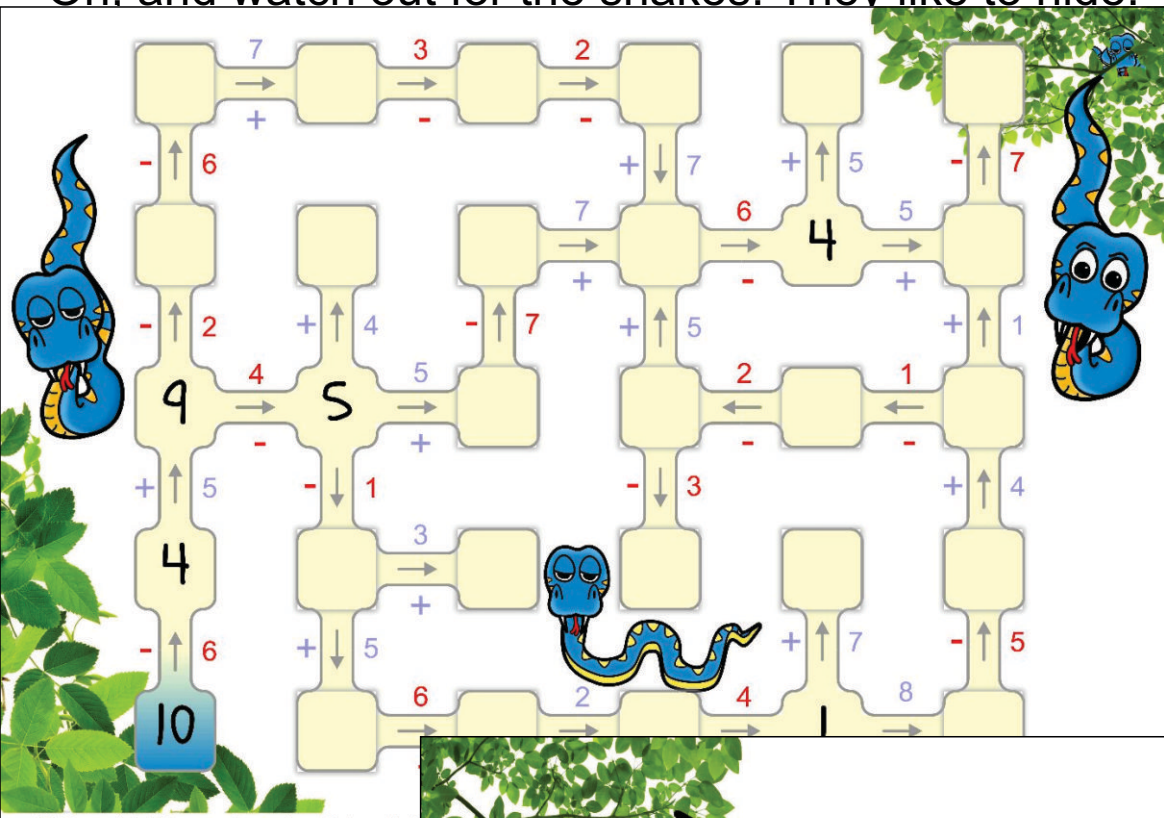

Practice your mental arithmetic skills with this fun series of number snake puzzles to exercise addition, subtraction, division and multiplications skills. When math is this fun, it doesn't even feel like learning! :-)

There are 11 puzzle grids in all, each with various math sums to be solved. Work out each sum as you progress around the snake until all sums are solved. When a grid is complete, as an added bonus, you'll get the first part to a fun math joke/pun. Want the punchline? You'll have to solve the next grid first!

- Grid 01: Addition (numbers up to 10)
- Grid 02: Addition (numbers up to 25)
- Grid 03: Addition & subtraction (numbers up to 50)
- Grid 04: Addition & subtraction (numbers up to 100)
- Grid 05: Multiplication & division (numbers up to 50)
- Grid 06: Multiplication & division (numbers up to 100)
- Grid 07: Multiplication & division (numbers up to 1000)
- Grid 08: All 4 operators (numbers up to 35)
- Grid 09: All 4 operators (numbers up to 50)
- Grid 10: All 4 operators (numbers up to 100)
- Grid 11: All 4 operators (numbers up to 1000)

The first 3 cards are instruction cards, which plainly explain how the whole thing works, although it's very intuitive anyway.

Oh, and watch out for the snakes! They like to hide!
