This is a fun series of word ladder cards. Add one letter to the starting word to make a new word. Add another letter to that word to make a third new word.

Clues/hints are provided in the form of a combination of both dictionary definitions as well as cryptic clues to help identify the next word in the ladder.

There are 16 puzzle cards in all, with 2 new words to be found on each card. Instruction cards up front help explain how it all works.

In this easier deck, there are clues as well as color-coding to help make it easy to identify which letter needs to be added to create the next new word in the ladder. Also, the letters from the previous words are included in the subsequent words.
