

Word Ladder #5

18 Boom cards

Click [HERE](#) for a playable preview

This is a fun series of word ladder cards. Add one letter to the starting word to make a new word. Add another letter to that word to make a third new word.

Clues/hints are provided in the form of a combination of both dictionary definitions as well as cryptic clues to help identify the next word in the ladder.

There are 16 puzzle cards in all, with 2 new words to be found on each card. Instruction cards up front help explain how it all works.

In this harder deck, there are still clues to help make it easy to identify which letter needs to be added to create the next new word in the ladder but no longer any color-coding. The letters in the subsequent words are also not present, so you have to enter them all in.
